SUMMARY

Experienced developer since 2019, can develop web and mobile applications. Very passionate and fast learner when it comes to coding. Love to travel and listen to musics on Spotify

EXPERIENCE

Fullstack developer internship
WASSA TECHNOLOGIE   August 2023 - August 2023, Mali, Bamako
· Developed the backend of web applications through Spring boot, a Java framework for backend.
· Developed a web application through Angular, a Javascript framework.
· Led the backend team 1 month after the beginning of my internship.

PROJECTS

HACKHATON
UNESCO INDIA · https://uia.mic.gov.in/ · November 2022 - November 2022
· Developed android application through Java.
· Used a backend service of Spring boot from one of my teammate as API.

Digital clinic
School graduation · December 2022 - February 2022
· Developed an mobile application that handles doctors available on the system, as a back office service.
· Developed a web application that normal people can use to contact the doctors.
· Participated in the whole process of conception of the software (use cases, classes diagram and so on).

H20 Challenge
FIRST GLOBAL · https://first.global/archive/fgc-2022/ · January 2017 - August 2017
· Amoung developers that developed the logical part of the robot (software).
· Helped mecanic teams some times and was switching roles too.
· Experienced the control of the robot through PS-like controllers.

EDUCATION

Licence of Software Engineering
Minor in Mathematics, Physics · Faculte des sciences et techniques de Bamakp · Mali, Bamako · 2022

CERTIFICATIONS

Prix d'excellence
Mali · 2023
· President of Mali recognized US for our success in first global challenge
